

CIBA members Subsidised Fees Scheme

CIIM - Cyprus International Institute of Management, the only International Business School in Cyprus specialised in Management, offers subsidised fees (-40%) to all employees and family of CIBA members who meet school admissions criteria. The **subsidised fees scheme**, enables beneficiaries to enrol in all programs (in Nicosia and Limassol campuses):

- **MBA**
- **MSc in HR Management & Organisational Behaviour**
- **MSc Business Management**
- **Master in Public Sector Management**
- **MSc in Financial Services**
- **MSc in Business Intelligence & Data Analytics**
- **MSc in Shipping Operations & Management**
- **MSc in Applied Information Technologies**
- **MSc στην Education, Leadership & Management**

Postgraduate Programs' Comparative Advantages

- CIIM **MBA**, is the 1st validated MBA program in Cyprus. It is a distinguished, world-class program, having for 15 consecutive years the prestigious accreditation of EFMD.
- **MSc in HRM & OB** offers training in anthropocentric management models, strategic thinking και leadership skills. The program follows the standards of the American "Society for Human Resource Management".
- **MSc in Business Management** provides leadership skills and administrative knowledge, while providing connections with the business world of Cyprus and abroad.
- **Master in Public Sector Management** prepares the leaders of tomorrow. It trains in identifying opportunities, making effective decisions and creatively solving problems in public governance.
- **MSc in Financial Services**, specializes in innovative financial technologies and digital financing. It provides access to the business world of Cyprus and the global association "Chartered Financial Analysts Institute (CFA)".
- **MSc in Business Intelligence & Data Analytics** provides training in the entire spectrum of electronic data science and delves into all levels of the digital economy.
- **MSc in Shipping Operations & Management**, is the only online Master in the Eastern Mediterranean, specializing in International Shipping and Supply Chain
- **MSc in Applied Information Technologies** offers skills in digital transformation, artificial intelligence and data analysis in IT technologies.
- **MSc in Education, Leadership & Management**, effectively prepares for development in management positions of educational units, organizations and private companies.

CIIM Comparative Advantages

- CIIM is the only Business School in Cyprus receiving **3 Palmes of Excellence** from Eduniversal from 2015 until today.
- All CIIM programs are recognized by KYSATS and DIPAE and are offered in English. (MSc in Education, Leadership & Management is offered in Greek).
- Classes are held in the afternoon, to make it possible to combine study and work.
- CIIM has pioneered the **modular educational model**, which allows students to **start attending each program, at any time during the year**, as well as a **flexible selection of courses**.
- CIIM supports its students, through the Career Office, either for finding a job, changing careers, or for internships for those who do not have work experience.
